

About Us

Driven by a shared philanthropic zeal of its founder members, the Consortium of National Self Financing Professional Institute (CONSPI) Trust, a public charitable trust established the Conspi Academy of Management Studies (CAMS). CAMS is a B School aimed to promote and provide higher Management Education in the country and in particular in the state of Kerala. To achieve its objectives, CAMS was setup in 2004, offering a full time MBA programme, approved by All India council for Technical Education (AICTE) and recognized by Cochin University of Science & Technology (CUSAT). CAMS is ranked as one of the premier B School in the state. Students at CAMS are groomed to excel both in Academics and industry by integrating values, traditions, and social responsibilities. CAMS strive to make the students globally competent with a modern outlook. We at CAMS are committed to accomplish the task of not only enhancing the student's academic qualifications and career prospectus but also in shaping their overall character and perception, to transform them in to much-needed socially responsible business leaders of tomorrow.

19 YEARS ANNIVERSARY

A Two-day FDP Programme on Handling Data Analysis using **JASP**

12th and 13th January 2023

www.camstvm.org

Why Learn JASP

JASP is a free multi-platform open-source statistics package, developed and continually updated by a group of researchers at the University of Amsterdam. It has a simple drag and drop interface, easy access menus, intuitive analysis with real-time computation, and a display of all results. JASP (Jeffreys's Amazing Statistics Program) is a free and open-source program for statistical analysis supported by the University of Amsterdam. It is designed to be easy to use, and familiar to users of SPSS.

The JASP application is written in C++ and QML, using the Qt toolkit. The analyses themselves are written in R and use many packages from CRAN. It requires substantially fewer clicks to do anything in JASP compared to SPSS.

Objectives

- To acquire basic knowledge about JASP
- To train the participants in access data from various domain
- To help the participants in descriptive and inferential analysis
- To have hands on experience in statistical tools
- To have confidence as independent data analyst
- To facilitate the establishment of a network of researchers
